Assist-to-Succeed (ATS) Consulting

Who are we?

We are a team of experienced professionals who wish to use our many years of experience to benefit our community. We utilise our skills to assist charitable and non-profit-making community groups.

Our group is a registered charity. All our work is pro-bono and we are only funded by donations.
Our diverse group is composed of professionals from diverse backgrounds including senior management, consulting, business development, engineering, finance, project management and information and communication technology.

We advise, guide, consult and review in order to promote management maturity and self-sufficiency.

We often contribute by taking an active and longer-term partnership on advisory groups and steering committees responsible for key initiatives or by providing advice to key executives on a one-on-one basis.

We are valued for our independence, free of organisational politics or the motivation to attract fee-paying business.
